CASE # 2016-00018320

DATE AND TIME
OF COLLISION

NARRATIVE

On 09-16-16, at approximately 0421 hours, I responded to a collision that occurred on State Route 92, near the intersection of Grade RD and Callow RD. While en route, SnoPac advised it was a non-blocking, non-injury collision, where the reporting party hit a deer.

Upon arrival, the driver of Unit 1 stated he was driving westbound on State Route 92, approaching the intersection of Grade RD and Callow RD, when the largest deer he had ever seen came out of nowhere. Unit 1 had no time to react, where he collided with the deer. Unit 1 stated the deer continued off onto the south side of State Route 92.

In investigating that area, it was discovered that Unit 1 actually collided with a large elk. The elk's stomach region was completely ripped open from the impact, where its intestines and stomach were out on the ground. The elk was dead in the grass, just south off of State Route 92 and east of Grade RD. Lake Stevens Public Works was notified of the dead elk, in order for it to be properly removed.

Unit 1 stated he was not injured, where he refused the need for Aid. Unit 1's vehicle suffered major damages to the entire front end of the vehicle, along with damages down the driver's side of the vehicle. Unit 1 was not drivable, where R&R Star Towing later towed the vehicle away from the scene.

Digital photographs were taken of the scene and submitted into the case jacket. Unit 1 was given a case number and information regarding the collision for his insurance purposes.

This concluded my involvement, where I cleared the scene.
